Nokia E90 Front Cover Replacement

This will teach the user how to remove the front screen from their Nokia E90

Written By: Cameron Weinberg

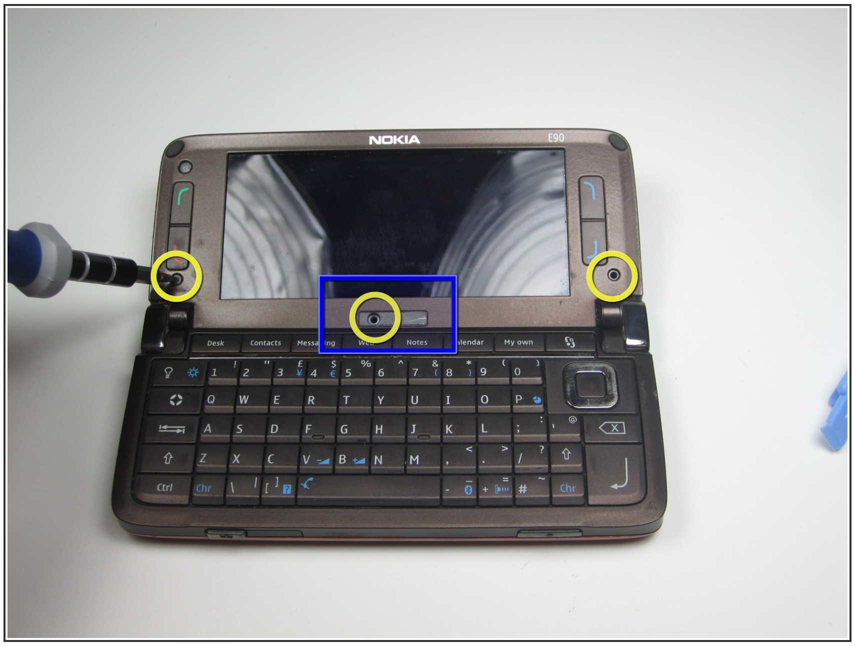

INTRODUCTION

This guide requires a T5 screwdriver for the screws.

TOOLS:

- T5 Torx Screwdriver (1)

Step 1 — Front Cover

- Start with the phone in the flipped open position.
- You must remove the sticker in the center, below the screen to reveal the center screw.
- Use a T5 screwdriver to remove all three screws, loosening the front screen.

Step 2

- Flip the phone to the closed position and turn to the front screen.
- The front cover will now be loose enough for you to remove by grabbing the edges and lightly pulling the cover off.

To reassemble your device, follow these instructions in reverse order.
